JBL PRO CONNECT V2.03 - RELEASE NOTES- Final
Public Release – V 02.03

New Features Implemented:

- Support for In-App Fader Lock feature
- Support for Mute Operation in JBL Eon Compact
- Play Pause Widget can control all native and 3rd party streaming apps
- Improvement in Snapshot recall – User is now informed about parameters that could not be recalled correctly
- Speaker lock status retain on power down
- Support for In-App Update Notification to the user

Performance Enhancements:

- Performance improvements for Snapshot Recall
- Performance improvements for Preset Recall
- Performance improvements for Channel Grouping
- General bug fixes and performance improvements across Speaker Models

Note: *Please note that it is recommended all users remove the speaker from the app and the phone/tablet settings menu. Once this process is completed, users can re-pair their devices.*
